Professional Summary

Final-year State Engineering student in Computer Science (Artificial Intelligence & Data Science) with hands-on experience building and deploying production web systems and data-driven applications. Strong across the full stack — React/Next.js, Node.js/Express REST APIs, and relational databases — and grounded in end-to-end machine learning (ML) workflows from preprocessing to model evaluation. Certified Associate Data Scientist seeking software engineering or AI/ML roles.

Technical Skills

Languages: Python, TypeScript, JavaScript, Go, SQL
Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs, WebSockets, Authentication (JWT), Role-Based Access Control (RBAC)
Databases & Data Engineering: PostgreSQL, MongoDB, Oracle, Talend (ETL), Data Warehousing
Machine Learning & Data: Scikit-learn, Regression, Classification, Feature Engineering, Pandas, NumPy, Matplotlib
DevOps & Tools: Git, Docker, Linux, Vercel, Railway
Languages (spoken): Arabic (Native), French (B2 – TCF), English (Professional)

Professional Experience

Egor Gaming May 2026 – Present
Front-End Developer Remote

- Build and maintain the frontend of a live Next.js gaming platform, writing typed React components in TypeScript.
- Reorganized the frontend from a flat components/ folder into a feature-based features/ structure, which made the codebase easier to navigate and extend.
- Moved most of the app's domains over to the new structure and wrote up the approach so the rest of the team could follow it.

NAFTAL — Direction Centrale des Systèmes d'Information Jun 2025 – Jul 2025
Full-Stack Web Developer Intern Algeria

- Built and deployed Tahwisa, a full-stack employee travel-management app used across multiple organizational centers for seasonal campaigns.
- Set up the REST API with authentication and role-based access control (RBAC).
- Designed the PostgreSQL schema and tuned the queries to keep the data consistent and responsive.
- Developed the Next.js/TypeScript frontend and helped get the app shipped to production.

Community & Leadership

School of AI Club — Bejaia Jan 2026 – Present
Technical Assistant

- Help run workshops on machine learning, deep learning, and backend development.
- Walk participants through hands-on Python, data preprocessing, and model training.

Nexus Security Club — ESTIN Aug 2024 – Aug 2025
Logistics Manager

- Ran logistics and technical setup for cybersecurity competitions with 75+ participants.
- Worked with the other organizing teams to keep the events running smoothly.

Education & Certification

École Supérieure en Sciences et Technologies de l'Informatique (ESTIN) Sep 2022 – 2027 (Expected)
State Engineer in Computer Science — Artificial Intelligence & Data Science (Final Year)

DataCamp — Associate Data Scientist Professional Certification
